ORIGINAL MEDICINE THROUGH THE HOLISTIC P.E.N. WAY™

Based on the concepts presented in *Original Medicine: A Holistic Manual in Biblical Medicine* by Lawrence DeSantis, restructured through the Holistic P.E.N. Way™ framework and NHMEC educational model.

Instructor:
Min. Penny Lane Whittemore, CNC, BCNWP, CHGp, RHCH, CHHWC
Natural Health Ministries Education Center

COURSE DESCRIPTION

Many wellness programs focus only on symptoms.

Many ministries focus only on the spirit.

The Holistic P.E.N. Way™ teaches that God created mankind as a **spirit, soul, and body** being and true restoration happens when all three are addressed together. This course explores Biblical Medicine, Original Medicine, Christian Herbalism, Nutrition, Lifestyle Stewardship, Spiritual Restoration, and Whole-Person Wellness through a faith-centered lens.

Students will learn how to:

✅ Reveal what's hidden

✅ Restore what's broken

✅ Renew the whole person

through the framework of:

P – Perspective (Spirit)

E – Essence (Soul)

N – Nutrition (Body)

COURSE OBJECTIVES

Upon completion students will:

- Understand Biblical Medicine principles
- Understand Original Medicine concepts
- Apply the Holistic P.E.N. Way™
- Learn biblical foundations of health stewardship
- Understand spiritual, emotional, and physical root contributors to wellness challenges
- Learn principles of fasting and detoxification
- Learn foundational herbal wellness concepts
- Learn biblical nutrition principles
- Develop personalized wellness plans
- Learn how to minister wellness within an educational scope

COURSE DISCLAIMER

This course is educational in nature.

Students are not trained to diagnose, treat, cure, or prescribe.

NHMEC teaches educational wellness principles and biblical health stewardship.

RENEW THE WHOLE PERSON™

MODULE 1

THE ORIGINAL DESIGN OF GOD

Original Medicine Through the Holistic P.E.N. Way™

Course Introduction

Welcome to Module 1.

Before we talk about herbs, supplements, detoxification, nutrition, biofeedback, iridology, or wellness protocols, we must begin where God began.

Many people come to wellness searching for answers.

Some are exhausted.

Some are hurting.

Some are frustrated because they have spent years chasing symptoms without finding the root causes.

Others have been told that their condition is simply something they must learn to live with.

But as students of biblical wellness, we must ask a different question.

Not:

"What disease does this person have?"

But:

"What has been lost that God originally intended?"

That question changes everything.

The Holistic P.E.N. Way™ is built upon a simple truth:

God designed mankind to function in harmony.

When harmony is lost, imbalance appears.

When imbalance remains unresolved, dysfunction follows.

When dysfunction continues, disease often develops.

Therefore, true wellness is not simply removing symptoms.

True wellness is restoring God's original design.

The Foundation Scripture

1 Thessalonians 5:23 (KJV)

"And the very God of peace sanctify you wholly; and I pray God your whole spirit and soul and body be preserved blameless unto the coming of our Lord Jesus Christ."

This verse is one of the most important wellness scriptures in the entire Bible.

Notice God does not say body only.

He does not say mind only.

He does not say spirit only.

He says:

Spirit.

Soul.

Body.

God recognizes all three.

Therefore, if we are going to minister wellness God's way, we must recognize all three as well.

This is the foundation of the Holistic P.E.N. Way™.

What Is the Holistic P.E.N. Way™?

P.E.N. stands for:

P – Perspective (Spirit)

Our relationship with God.

Our faith.

Our identity in Christ.

Our purpose.

Our spiritual health.

E – Essence (Soul)

Our thoughts.

Our emotions.

Our memories.

Our beliefs.

Our choices.

Our relationships.

N – Nutrition (Body)

What we eat.

How we sleep.

How we move.

How we nourish the body God has given us.

Our physical stewardship.

Most wellness programs focus only on Nutrition.

Many counseling programs focus only on Essence.

Many ministries focus only on Perspective.

The Holistic P.E.N. Way™ seeks to bring all three back into alignment.

God's Original Design

The Bible begins with:

"In the beginning God..."

Before there was sickness...

Before there was stress...

Before there was trauma...

Before there was confusion...

There was God.

This is important because restoration always begins where creation began.

With God.

Many people try to heal their body while neglecting their relationship with God.

Others focus only on spiritual matters while neglecting stewardship of the body.

The biblical model is balance.

God is first.

Then everything else flows from that relationship.

The Order of Restoration

Many wellness systems begin with the body.

God begins with the spirit.

The Original Medicine text points out that God's order is:

Spirit

Soul

Body

This order matters.

Imagine trying to build a house beginning with the roof.

It will collapse.

Likewise, many people attempt to restore physical health while ignoring spiritual wounds and emotional burdens.

Eventually the foundation begins to crack.

The Holistic P.E.N. Way™ teaches:

Perspective First

Restore connection with God.

Essence Second

Restore the soul.

Nutrition Third

Restore the body.

When these three work together, restoration becomes much more sustainable.

Why People Become Unbalanced

God created mankind for harmony.

However, life introduces disruption.

Some examples include:

Fear

Trauma

Grief

Bitterness

Stress

Poor nutrition

Toxic exposures

Sleep deprivation

Relationship struggles

Spiritual confusion

These burdens often affect more than one area of life.

For example:

A woman carrying years of unforgiveness may develop anxiety.

Anxiety may interfere with sleep.

Poor sleep may affect hormones.

Hormonal imbalance may affect digestion.

Digestive dysfunction may affect nutrient absorption.

Nutrient deficiencies may worsen emotional resilience.

The cycle continues.

This is why we never look at one symptom alone.

We seek to reveal what is hidden.

The Role of Jesus in Restoration

As Christian wellness practitioners, we acknowledge something very important.

Herbs are not the healer.

Supplements are not the healer.

Protocols are not the healer.

God is the healer.

Jesus is still the Great Physician.

Herbs may support the body.

Nutrition may nourish the body.

Prayer may strengthen the spirit.

Counsel may encourage the soul.

But restoration ultimately flows from God.

This keeps our focus where it belongs.

Not on methods.

Not on products.

Not on personalities.

But on Christ.

The Wellness Stewardship Principle

Many Christians struggle with balance.

Some rely completely on natural methods.

Others reject all natural support.

Biblical wellness teaches stewardship.

God created food.

God created herbs.

God created water.

God created sunlight.

God created rest.

God created the human body with incredible design.

Stewardship means caring for these gifts wisely.

We do not worship them.

We use them responsibly.

The Three Questions Every Wellness Journey Must Answer

As we move through this course, continually ask yourself:

Perspective

How is my relationship with God?

Essence

What emotional burdens am I carrying?

Nutrition

How well am I stewarding my physical body?

The answers to these questions often reveal more than laboratory reports alone.

Holistic P.E.N. Way™ Reflection

Take a moment and write down your thoughts.

What area of your spirit, soul, or body needs the greatest restoration?

Why?

What has God been showing you?

What changes do you believe He is calling you to make?

This reflection will become the foundation for your personal wellness journey throughout this course.

Key Takeaways

✓ God created mankind as spirit, soul, and body.

✓ True wellness requires addressing all three.

✓ Restoration begins with God.

✓ Jesus remains the source of healing.

✓ Wellness is stewardship, not self-salvation.

✓ The Holistic P.E.N. Way™ seeks to reveal what is hidden, restore what is broken, and renew the whole person.

✓ Every wellness journey begins by returning to God's original design.

Module 1 Assignment

Write a two-page reflection answering:

"What area of my spirit, soul, or body needs the greatest restoration?"

Include:

• Current challenges

• Areas of strength

• Areas needing growth

• Spiritual insights

• Practical action steps

• A prayer of dedication for your wellness journey

Remember:

God is not simply interested in removing symptoms.

He is interested in restoring the whole person.

MODULE 2

REVEAL *What's Hidden*

Looking Beyond Symptoms

The root *of the matter* runs deeper than what we can see.

Trauma

Chronic Stress

Hidden Stress Patterns

Toxic Load

Lifestyle Habits

Poor Nutrition

Emotional Burdens

Spiritual Disconnection

He that covereth his sins shall not prosper:
but whoso confesseth and forsaketh them shall have mercy.

MODULE 2

REVEAL WHAT'S HIDDEN

Biblical Root Cause Assessment Through the Holistic P.E.N. Way™

Course Theme

REVEAL WHAT'S HIDDEN

RESTORE WHAT'S BROKEN

RENEW THE WHOLE PERSON™

Introduction

One of the greatest mistakes in modern wellness is focusing only on symptoms.

A headache appears.

A cream is applied to a rash.

A medication is given for heartburn.

A supplement is taken for fatigue.

But what if those symptoms are not the problem?

What if they are messengers?

What if the symptom is simply the body's way of saying:

"Something deeper needs attention."

As students of the Holistic P.E.N. Way™, we are not symptom chasers.

We are investigators.

We seek to understand what may be hidden beneath the surface.

Just as a weed continues to grow if the root remains, many wellness challenges continue because the root has never been addressed.

This is why we begin with revelation.

Before restoration comes revelation.

Before healing comes understanding.

Before solutions come investigation.

The Principle of Hidden Things

Proverbs 25:2 (KJV)

"It is the glory of God to conceal a thing: but the honour of kings is to search out a matter."

Many wellness challenges have layers.

What is seen on the outside is often not the whole story.

The visible issue may only be the final expression of a deeper imbalance.

For example:

A person may complain of fatigue.

Yet the fatigue could be connected to:

Poor sleep

Stress

Nutrient depletion

Chronic inflammation

Unresolved grief

Adrenal strain

Spiritual discouragement

Lack of purpose

Or a combination of several factors.

This is why the Holistic P.E.N. Way™ teaches us to ask:

"What is hidden beneath the symptom?"

Looking Beyond Symptoms

Symptoms are valuable.

They are clues.

They are indicators.

They are warning lights.

But they are not always the root cause.

Imagine driving a car and seeing the oil warning light.

Covering the light with tape would not fix the problem.

Likewise, suppressing a symptom does not necessarily restore balance.

The symptom is simply revealing information.

As Christian wellness practitioners, we listen carefully to what the body is communicating.

We also listen to what the soul is communicating.

And most importantly, we listen to what the Spirit of God may be revealing.

The Holistic P.E.N. Way™ Investigation Model

When someone comes seeking wellness support, we investigate three primary areas:

P – Perspective (Spirit)

E – Essence (Soul)

N – Nutrition (Body)

Each area may reveal hidden contributors to imbalance.

PERSPECTIVE

Spirit Investigation

Many people never consider how spiritual health affects overall wellness.

Yet scripture repeatedly shows the connection between spiritual life and physical life.

Questions we may ask include:

Do you have a relationship with God?

Do you spend time in prayer?

Do you regularly read scripture?

Are you carrying guilt or condemnation?

Do you feel disconnected from God?

Do you have a sense of purpose?

Are you living in alignment with your values and beliefs?

These questions are not asked to judge.

They are asked to understand.

Many individuals are carrying spiritual burdens they have never addressed.

Some feel hopeless.

Some feel abandoned.

Some struggle with shame.

Others have lost their sense of purpose.

These hidden burdens can influence every area of life.

ESSENCE

Soul Investigation

The soul consists of:

Mind

Will

Emotions

Relationships

Beliefs

Memories

Experiences

This is often where hidden wounds live.

A person may appear healthy outwardly while carrying years of:

Fear

Rejection

Trauma

Bitterness

Grief

Unforgiveness

Abandonment

Chronic stress

Many people have learned how to function while wounded.

But functioning is not the same as healing.

As wellness practitioners, we learn to recognize patterns.

Not to diagnose.

Not to label.

But to help individuals recognize areas that may need attention.

Questions may include:

What has been your greatest life stressor?

What emotional burden are you carrying?

What keeps you awake at night?

What brings you peace?

What drains your energy?

What relationships need healing?

The answers often reveal important clues.

NUTRITION

Body Investigation

The body keeps score.

It remembers years of stress.

It remembers poor sleep.

It remembers dehydration.

It remembers nutrient deficiencies.

It remembers toxic exposures.

The body often tells a story.

We simply need to learn how to listen.

Questions may include:

How much water do you drink daily?

How well do you sleep?

How often do you move your body?

How is your digestion?

How is your energy level?

What medications or supplements do you use?

What does a typical day of eating look like?

These answers help us identify physical stressors that may be contributing to imbalance.

The Difference Between Symptoms and Patterns

One symptom rarely tells the entire story.

Patterns tell the story.

Consider:

Fatigue

Brain fog

Digestive discomfort

Sleep issues

Sugar cravings

Mood swings

Viewed separately, they may seem unrelated.

Viewed together, they reveal a pattern.

The Holistic P.E.N. Way™ teaches us to look for patterns rather than isolated complaints.

Patterns help us uncover hidden stressors.

Common Hidden Contributors to Imbalance

Spiritual Contributors

Loss of purpose

Spiritual discouragement

Lack of hope

Disconnection from God

Unresolved guilt

Emotional Contributors

Fear

Grief

Trauma

Stress

Bitterness

Unforgiveness

People-pleasing

Perfectionism

Physical Contributors

Poor nutrition

Lack of hydration

Sleep deprivation

Nutrient depletion

Digestive dysfunction

Chronic inflammation

Environmental stressors

Sedentary lifestyle

NHMEC Assessment Tools

At Natural Health Ministries Education Center, we use educational assessment tools to help reveal patterns.

These may include:

Wellness Discovery Assessments

Structured questionnaires that identify wellness patterns.

Iridology

Observation of constitutional tendencies and stress patterns.

Hair Biomarker Wellness Scan

Educational review of nutritional and mineral patterns.

Biofeedback Scheme of Investigation

Identifying stress responses and potential imbalance patterns.

Lifestyle Review

Evaluating daily habits and routines.

These tools do not diagnose disease.

They provide educational information that helps reveal potential areas needing support.

Why We Investigate Before We Intervene

Many people immediately want solutions.

"What supplement should I take?"

"What herb should I use?"

"What protocol should I follow?"

But wisdom asks a different question first.

"What is causing the imbalance?"

A protocol without investigation is often incomplete.

Investigation allows us to develop more personalized wellness plans.

This is one of the reasons the Holistic P.E.N. Way™ emphasizes assessment before recommendations.

The Goal Is Awareness

Our goal is not perfection.

Our goal is awareness.

Awareness creates understanding.

Understanding creates wisdom.

Wisdom creates better choices.

Better choices create better outcomes.

This is why revealing what is hidden is such an important part of restoration.

You cannot restore what you do not recognize.

Holistic P.E.N. Way™ Reflection Exercise

Spend time in prayer and ask:

"Lord, what have I overlooked?"

"What hidden stressors may be affecting my wellness?"

"What patterns am I seeing in my life?"

"What area needs my attention first?"

Write down what comes to mind.

Often the Holy Spirit reveals things we have ignored for years.

Key Takeaways

✓ Symptoms are clues, not necessarily root causes.

✓ Wellness investigation requires looking at spirit, soul, and body.

✓ Hidden contributors often exist beneath visible symptoms.

✓ Patterns reveal more than isolated complaints.

✓ Assessment creates awareness.

✓ Awareness leads to wisdom.

✓ Wisdom helps guide restoration.

✓ We investigate before we intervene.

Module 2 Assignment

Personal Wellness Timeline

Create a timeline of your life and identify:

Major stressors

Major illnesses

Significant losses

Traumatic events

Lifestyle changes

Spiritual milestones

Periods of growth

Periods of decline

Then answer:

What patterns do you notice?

What hidden contributors may have influenced your wellness journey?

What area of Perspective, Essence, or Nutrition needs the most attention right now?

Close with prayer and ask God for wisdom as you continue through the course.

Remember:

You cannot restore what remains hidden.

The first step toward restoration is revelation.

MODULE 3

The Genesis 1 Wellness Blueprint

CREATED • DESIGNED • BLESSED
FOR WHOLENESS

And God saw every thing that he had made, and, behold, it was very good.
GENESIS 1:31

AIR

Fresh, clean air for life and renewal.

WATER

Pure, living water to cleanse and refresh.

LIGHT

Sunlight by day, moon and stars by night.

FOOD

Every herb bearing seed, and every tree with fruit.

MOVEMENT

To cultivate, work, walk and steward the garden.

REST

A rhythm of rest to restore body, soul, and spirit.

GOD'S DESIGN. OUR STEWARDSHIP.

REVEAL WHAT'S HIDDEN

RESTORE WHAT'S BROKEN

RENEW THE WHOLE PERSON™

Introduction

In Module 1, we learned that God created mankind as spirit, soul, and body.

In Module 2, we learned how to identify hidden contributors to imbalance.

Now we come to a very important question:

What was God's original design?

If we want restoration, we must understand what was lost.

If we want renewal, we must understand God's blueprint.

The world offers thousands of diets.

Thousands of supplements.

Thousands of wellness systems.

Yet long before there were wellness trends, God had already established principles for life.

The answers begin in Genesis.

The Bible does not begin with sickness.

The Bible begins with life.

The Bible begins with creation.

The Bible begins with God's design.

And whenever we want restoration, we return to the original design.

Why Genesis Matters

Many people read Genesis as a creation story.

But Genesis is more than a creation story.

Genesis reveals order.

Genesis reveals purpose.

Genesis reveals priorities.

Genesis reveals stewardship.

The Holistic P.E.N. Way™ teaches that the order of creation reveals the order of importance.

God created things in a specific sequence.

That sequence teaches us how to live.

When we follow God's order, we often experience greater harmony.

When we ignore God's order, imbalance often follows.

The First Principle

In The Beginning God

Genesis 1:1

"In the beginning God created the heaven and the earth."

The first wellness principle is not food.

It is not herbs.

It is not supplements.

It is not exercise.

The first principle is God.

Everything begins with Him.

Many people seek healing while neglecting the Healer.

Many seek peace while neglecting the Prince of Peace.

Many seek answers while neglecting the One who created them.

The Holistic P.E.N. Way™ teaches:

Perspective always comes before Nutrition.

Relationship with God comes before protocols.

Why?

Because God is the source of life.

The Genesis Wellness Order

As we study Genesis 1, we discover a pattern.

God created:

Air

Water

Light

Plants

Seeds

Fruit

Living creatures

Mankind

This order reveals important wellness principles.

Let us examine them through the Holistic P.E.N. Way™.

PERSPECTIVE

The Spiritual Foundation

Everything begins with God.

The first priority of wellness is spiritual alignment.

This includes:

Prayer

Worship

Reading Scripture

Meditation on God's Word

Obedience

Purpose

Identity in Christ

Many people try to improve their physical health while neglecting their spiritual health.

But God designed us to thrive when connected to Him.

A disconnected branch cannot flourish.

Likewise, a disconnected life struggles to thrive.

ESSENCE

The Soul Foundation

God created mankind with emotions, thoughts, creativity, relationships, and purpose.

The soul requires nourishment just as the body does.

Healthy soul practices include:

Rest

Peace

Forgiveness

Healthy boundaries

Meaningful relationships

Purposeful work

Gratitude

Emotional honesty

When the soul is neglected, stress begins to accumulate.

When stress accumulates, the body eventually feels the burden.

NUTRITION

The Physical Foundation

Genesis teaches us several physical principles.

These are not simply nutritional concepts.

They are stewardship principles.

Principle 1

Clean Air

Before food, there was air.

God created an atmosphere designed to sustain life.

Every cell in the body depends upon oxygen.

Many people focus heavily on food while overlooking breathing.

Deep breathing:

Supports oxygen delivery

Supports circulation

Supports relaxation

Supports nervous system balance

Supports mental clarity

The body can survive weeks without food.

Days without water.

Only minutes without oxygen.

Air matters.

Principle 2

Pure Water

Water appears before food in Genesis.

The human body is largely water.

Water is involved in:

Detoxification

Circulation

Digestion

Temperature regulation

Joint health

Energy production

Mental function

Many people walk through life chronically dehydrated.

Often what feels like fatigue is actually dehydration.

Hydration is one of the simplest and most overlooked wellness practices.

Principle 3
Light

Before mankind existed, God created light.

Light influences:

Sleep

Hormones

Mood

Energy

Immune function

Circadian rhythms

Natural sunlight helps regulate many body systems.

God created mankind to live in rhythm with day and night.

Modern life often disrupts those rhythms.

The Genesis blueprint reminds us to reconnect with natural cycles whenever possible.

Principle 4
Plants

Before animals were introduced as food, Genesis highlights vegetation.

God created:

Herbs

Greens

Vegetables

Fruits

Seeds

Trees

Plants contain:

Fiber

Phytonutrients

Minerals

Antioxidants

Vitamins

Many modern diets have moved away from whole foods and toward highly processed foods.

The further we move from God's original foods, the more imbalance often develops.

Principle 5
Seeds

Seeds represent life.

God specifically mentions seed-bearing plants.

Seeds contain concentrated nutrition.

Examples include:

Flax

Chia

Pumpkin

Sunflower

Sesame

Hemp

Seeds provide:

Healthy fats

Protein

Minerals

Fiber

Nutrient density

God designed them as part of His provision.

Principle 6

Fruit

Fruit provides:

Natural hydration

Antioxidants

Phytonutrients

Fiber

Natural sweetness

Fruit reminds us that God's provision is both nourishing and enjoyable.

God did not create health to be miserable.

He created abundance.

Principle 7

Rest

Although rest is emphasized in Genesis 2, it is impossible to discuss God's blueprint without mentioning it.

Modern culture celebrates busyness.

God celebrates rest.

Rest is not laziness.

Rest is restoration.

Sleep is one of God's greatest healing gifts.

During sleep:

The brain repairs

Hormones regulate

Cells regenerate

Inflammation decreases

Memory consolidates

Many wellness struggles improve when sleep improves.

Principle 8
Movement

Adam and Eve did not live sedentary lives.

Movement was part of daily living.

The body was designed for motion.

Movement supports:

Circulation

Muscle strength

Joint mobility

Detoxification

Mood

Metabolism

Movement does not have to be complicated.

Walking remains one of God's simplest wellness tools.

Principle 9

Stewardship

The Genesis account repeatedly uses the concept of dominion.

Dominion is not control.

Dominion is stewardship.

God entrusted creation to mankind.

Likewise, God entrusts our bodies to us.

Stewardship asks:

How am I caring for what God has given me?

How am I nourishing my body?

How am I protecting my peace?

How am I using my time?

How am I honoring God through my daily choices?

The Genesis Lifestyle Model

The Holistic P.E.N. Way™ teaches the following priorities:

Perspective

Relationship with God

Prayer

Scripture

Worship

Purpose

Essence

Peace

Forgiveness

Identity

Healthy relationships

Emotional stewardship

Nutrition

Air

Water

Light

Movement

Rest

Whole foods

Herbs

Hydration

Sleep

Modern Challenges to the Genesis Blueprint

Today we face challenges Adam and Eve never faced:

Processed foods

Artificial ingredients

Excessive screen time

Environmental toxins

Chronic stress

Sleep disruption

Sedentary lifestyles

Information overload

The further we drift from God's original design, the more intentional we must become about returning to it.

Returning to the Blueprint

Restoration often begins with simple steps.

Drink more water.

Go outside.

Walk daily.

Eat more whole foods.

Spend time in prayer.

Read Scripture.

Get adequate sleep.

Reduce unnecessary stress.

These practices may seem simple.

But simple does not mean insignificant.

Many profound changes begin with small acts of stewardship.

Key Takeaways

✓ God's design provides a blueprint for wellness.

✓ Relationship with God is the first wellness priority.

✓ Air, water, light, food, rest, and movement are foundational.

✓ Whole-person wellness requires spirit, soul, and body stewardship.

✓ The Genesis model emphasizes simplicity and balance.

✓ Restoration often begins by returning to God's original design.

✓ Stewardship is an act of worship.

Module 3 Assignment

Genesis Wellness Habit Tracker

For the next 7 days track:

□ Prayer

□ Scripture Reading

□ Water Intake

□ Outdoor Time

□ Movement

□ Sleep

□ Fruit Intake

□ Vegetable Intake

□ Gratitude Practice

At the end of the week answer:

Which habit was easiest?

Which habit was most difficult?

What changes did you notice?

What area of Perspective, Essence, or Nutrition needs greater attention?

Close with prayer and ask God to help you walk in faithful stewardship of spirit, soul, and body.

Remember:

God's blueprint for wellness is not complicated. It is foundational. When we return to the foundation, restoration becomes possible.

MODULE 4

HERBS IN BIBLICAL *Wellness*

God's Green Pharmacy

And by the river upon the bank thereof, on this side and on that side, shall grow all trees for meat, whose leaf shall not wither, neither shall the fruit thereof fail...

EZEKIEL 47

Again he brought me unto the door of the house; and, behold, there issued water from under the threshold of the house eastward: for the forefront of the house stood toward the east: and the water came down from under, from the right side of the house, southward of the altar.

REVEAL WHAT'S HIDDEN

RESTORE WHAT'S BROKEN

RENEW THE WHOLE PERSON™

Introduction

When most people hear the word herbalism, they immediately think about plants.

They think about teas.

Tinctures.

Capsules.

Salves.

Essential oils.

And while herbs are certainly part of biblical wellness, Christian herbalism is much bigger than simply learning about plants.

The Holistic P.E.N. Way™ teaches that herbs are tools.

They are not the source.

They are not the healer.

They are not the answer to every problem.

God is the source.

Jesus is the healer.

The Holy Spirit is our guide.

Herbs are part of God's provision to support the body while He works restoration within the whole person.

As Christian herbalists, we must always keep that order correct.

When we place herbs above God, we create an idol.

When we ignore the provision God created, we neglect stewardship.

Biblical wellness is found in balance.

The Biblical Foundation for Herbs

Genesis 1:29

"And God said, Behold, I have given you every herb bearing seed..."

Before mankind was given pharmaceuticals...

Before there were laboratories...

Before there were manufactured supplements...

God provided plants.

This does not mean every plant is beneficial.

Nor does it mean every herb is appropriate for every person.

It simply means God created a world filled with provision.

The first herbalist was not a human being.

The first herbalist was God Himself.

He designed the plants.

He designed their chemistry.

He designed the human body.

And He designed the relationship between them.

Ezekiel's Herbal Principle

Ezekiel 47:12

"And the fruit thereof shall be for meat, and the leaf thereof for medicine."

Notice the order.

Fruit for nourishment.

Leaves for support.

Food and herbs work together.

This principle forms a major foundation of the Holistic P.E.N. Way™.

Food is often the first medicine.

Herbs become additional support.

Many people want herbs while refusing to change their lifestyle.

But herbs work best when supported by proper stewardship.

What Is Christian Herbalism?

Christian Herbalism is the educational study of God's creation and how plants may support the body's natural processes while honoring biblical principles.

Christian herbalism recognizes:

God as Creator

Jesus as Healer

The Holy Spirit as Counselor

Plants as provision

Stewardship as responsibility

Prayer as essential

Wisdom as necessary

Christian herbalism differs from many modern approaches because it keeps God at the center of wellness.

The Holistic P.E.N. Way™ and Herbs

Many people ask:

"What herb should I take?"

The Holistic P.E.N. Way™ teaches us to ask a different question.

"What area needs support?"

Remember:

Perspective

Essence

Nutrition

A person struggling with chronic stress may not simply need an herb.

They may need:

Prayer

Boundaries

Rest

Hydration

Nervous system support

Emotional healing

Herbal support

All working together.

This is why we do not build protocols around herbs alone.

We build protocols around the whole person.

Why God Created Plants

Plants perform many functions.

They provide:

Food

Oxygen

Medicine

Beauty

Shelter

Fuel

Spiritual reminders

Throughout Scripture, God repeatedly uses plants as teaching tools.

Mustard seed.

Olive tree.

Fig tree.

Vine and branches.

Cedars of Lebanon.

The Bible reveals that God's creation teaches us about His character.

Herbs remind us that God provides.

Understanding Medicinal Foods

One of the easiest ways to begin herbal wellness is through medicinal foods.

Medicinal foods are foods that nourish while providing additional wellness benefits.

Examples include:

Garlic

Ginger

Turmeric

Cinnamon

Rosemary

Basil

Parsley

Oregano

These are often found in kitchens before they are found in apothecaries.

This is one reason NHMEC begins with the Kitchen Herbalist pathway.

Many powerful herbs are already sitting in our kitchens.

The Difference Between Food and Herbs

Food is generally consumed in larger amounts.

Herbs are generally used in smaller amounts.

Food nourishes.

Herbs support.

Food provides foundational nutrients.

Herbs often provide concentrated plant compounds.

Both have value.

Both have a place.

Neither should replace spiritual stewardship.

Categories of Herbal Actions

Herbalists often describe herbs by their actions.

Examples include:

Nourishing Herbs

Support rebuilding and strengthening.

Examples:

Nettle

Oatstraw

Red Clover

Alfalfa

Digestive Herbs

Support digestion and assimilation.

Examples:

Ginger

Peppermint

Fennel

Chamomile

Nervous System Herbs

Support relaxation and stress resilience.

Examples:

Lemon Balm

Passionflower

Skullcap

Milky Oats

Immune Support Herbs

Support healthy immune function.

Examples:

Elderberry

Astragalus

Echinacea

Garlic

Circulatory Herbs

Support healthy circulation.

Examples:

Hawthorn

Cayenne

Ginkgo

Rosemary

Respiratory Herbs

Support healthy respiratory function.

Examples:

Mullein

Thyme

Elecampane

Hyssop

The Herbal Stewardship Principle

The Holistic P.E.N. Way™ teaches:

Support before stimulation.

Nourish before detoxification.

Strengthen before cleansing.

This is very different from many modern wellness trends.

Many people immediately want aggressive cleanses.

Aggressive detoxification.

Extreme protocols.

But a depleted body often needs nourishment first.

Remember our NHMEC restoration model:

Phase 1

Renew & Nourish

Phase 2

Balance & Support

Phase 3

Maintain & Cleanse

A body that is not nourished cannot effectively detoxify.

Herbal Preparations

Herbs can be prepared in many ways.

Infusions

Often called herbal teas.

Best for leaves and flowers.

Examples:

Lemon Balm

Nettle

Peppermint

Chamomile

Decoctions

Used for roots, bark, and tougher plant materials.

Examples:

Burdock Root

Dandelion Root

Yellow Dock

Cinnamon Bark

Tinctures

Herbs extracted into alcohol or glycerin.

Concentrated and convenient.

Syrups

Often used for respiratory support.

Can be made with honey or glycerin.

Oils

Used externally.

Examples:

Calendula Oil

Plantain Oil

Comfrey Oil

Salves

Oil combined with wax for topical use.

Herbs Are Not Magic

This is one of the most important lessons in this course.

Herbs are not magic.

Herbs are not miracles.

Herbs do not replace wisdom.

Herbs do not replace repentance.

Herbs do not replace prayer.

Herbs do not replace stewardship.

Sometimes people take herbs while continuing unhealthy habits.

Then they wonder why nothing changes.

Wellness is not found in a bottle.

Wellness is found in stewardship.

Herbs are one tool among many.

The Christian Herbalist's Responsibility

As Christian herbalists we must:

Teach responsibly.

Remain within educational scope.

Avoid diagnosing.

Avoid prescribing.

Avoid making healing claims.

Encourage stewardship.

Point people toward Christ.

Support informed decision-making.

Operate with humility.

Remember:

We are educators.

God is the healer.

The NHMEC Herbal Philosophy

At NHMEC we teach:

Reveal What Is Hidden.
